Bahçeşehir University
BA, Communication Design
2021 – 2026 (expected)

BERAT ERDOĞAN

JUNIOR ART DIRECTOR

PROFILE

Junior Art Director at Altavia Dekatlon, producing social media and advertising visuals and short-form video across eight brand accounts. I'm used to turning a single concept into multiple formats and variations, and to running campaign adaptations in Photoshop and Illustrator quickly and consistently. I use AI as a natural part of the design process for prompt development, image generation and idea iteration, keeping the product and brand language exactly intact so the result stays on-brand.

EXPERIENCE

ALTAVIA DEKATLON — *Junior Art Director*

March 2026 – Present

- Lead the design and art direction of social media and advertising visuals and short-form video for D'S Damat, Yatsan, Toshiba, Koton, Trendyol, Pek Food, Cargill and Odeabank, working in parallel across briefs with different turnaround times.
- Make composition, typography and visual-language decisions for brief-driven concepts in line with each brand's identity.
- Adapt key campaign visuals to post, story and Reels formats in Photoshop and Illustrator, keeping them consistent across formats.
- Develop opening, scene and framing variations from a single concept to give teams testable options.
- Keep product and brand details exactly intact while freely changing backgrounds and concepts.
- Use AI tools (Higgsfield, Kling, Nano Banana) for idea iteration and image generation as part of the design process; finish in After Effects and Premiere.
- Built a prompt and workflow library the team reuses, based on tracking competitor ads and trends.

KASTEN KOLEKTIF — *Visual Designer*

December 2024 – December 2025

- Sped up the content production workflow by 40% by bringing AI-assisted editing and asset generation into the process.
- Produced 20+ print and digital materials for large-scale trade fairs on tight deadlines while keeping one brand language across all touchpoints.

YUP AGENCY — *Visual Designer*

June 2024 – September 2024

- Designed social media campaign visuals that increased client engagement by 20%.
- Produced Reels/Shorts motion graphics and short-form video in feed-native formats for organic reach.

NOTIVENT APP — *Digital Designer*

June 2023 – October 2023

- Led the visual strategy for a mobile app launch; designed the App Store visuals and the content set that brought in its first users.

TUS BODRUM — *Brand Designer (Freelance)*

2023

- Built the identity system from scratch, covering logo, color palette and typography rules, along with a seasonal social media language.

INDEPENDENT PROJECTS

KOLPA AI · LUMIO — *Founder & Solo Developer*

Two iOS apps live on the App Store

- Run their growth myself, including TikTok creatives, hook tests, App Store positioning and English localization.
